

Absolute Secure Endpoint

Absolute Secure Endpoint leverages the always-on connection provided by Absolute Persistence® to enable IT and security personnel to monitor and address computers' problems and enables the computers and their mission-critical applications to self-heal. This helps with IT management, strengthening a company's security posture, and maintaining compliance.

	MOST POWERFUL			Feature Availability
	Absolute Visibility <i>Serves as your source of truth for device and application health.</i>	Absolute Control <i>Provides you a lifeline to protect at-risk devices and data.</i>	Absolute Resilience <i>Delivers application self-healing and confident risk response.</i>	By Operating System
Track Hardware				
Report and alert on hundreds of hardware attributes	✓	✓	✓	Windows, macOS, Linux
Monitor device leasing reports	✓	✓	✓	Windows, macOS, Linux
Track new device activations and connection history	✓	✓	✓	Windows, macOS, Linux
Leverage pre-built and custom reports	✓	✓	✓	Windows, macOS, Linux
Flag missing devices and be alerted when they connect to the internet	✓	✓	✓	Windows, macOS, Linux
Track Installed Software				
Report on installed software by device or population	✓	✓	✓	Windows, macOS
Capture Device Insights				
Collect Absolute defined data points from the DataExplorer Library ¹	✓	✓	✓	Windows
Configure the collection of custom data points tailored to specific needs using the DataExplorer Builder	●	●	✓	Windows

  ADD-ON FEATURE
  REPORT ONLY

- Contact **Absolute Sales** to inquire about defining new custom device data points to be made available through the DataExplorer Library. DataExplorer is not supported on Windows 11 SE.
- Apple M1 based Mac devices require Absolute agent version 7.15 or above to be installed to capture updated Encryption status details.
- Only available for Chrome browser, on Windows and Chromebook devices.
- Firmware Freeze is only available on **eligible Windows devices**.
- Only available for **eligible Lenovo Devices**.
- All scripts in the Absolute Reach library are supported on Windows (except Windows 11 SE), while certain scripts are supported on MacOS.
- Absolute Application Health is available with eligible Absolute Resilience licenses. These do not include Absolute Resilience for Education, Absolute Resilience for Student Devices and Absolute Resilience for Chromebook.

- Self-healing of critical applications is available through Absolute Resilience. It is not supported on Windows 11 SE. Contact **Absolute Sales** for more information.
- Absolute is continuously adding to its Application Resilience catalog of supported apps. If you have a particular application that you would like to make resilient to external factors, contact **Absolute Sales** to make a request.
- North American, UK and Australian Education Customers only. Terms and Conditions apply. See **FAQ** for more details.
- API support for a particular product feature or function is aligned with the availability of that feature for a given base or add-on product. Devices that are not licensed for a given feature will not have access to APIs for it.
- Accelerated Device Actions is available with Absolute Resilience. Supported actions include Device Freeze, Device Wipe, File Delete, End User Messaging, Absolute Reach scripts and Endpoint Data Discovery. These actions are available with Absolute Visibility and Absolute Control as well, but not in an accelerated manner.

ABSOLUTE®

Absolute Software makes security **work**. We empower mission-critical performance with advanced cyber resilience. Embedded in more than 600 million devices, our cyber resilience platform delivers endpoint-to-network access security coverage, ensures automated security compliance, and enables operational continuity. Nearly 21,000 global customers trust Absolute to protect enterprise assets, fortify security and business applications, and provide a frictionless, always-on user experience.
